Re: New Product Evaluation, NPA2017-002

Mr. North:

The evaluation of PRO-RING, manufactured by Cretex Specialty Products, has been completed.

The documentation submitted indicates that PRO-RING, an expanded polypropylene foam adjustment section up to 6 inches, meets WSDOT Standard Specification 9-05.51(5) and has been added to the Qualified Products List (QPL). A copy of the listing, as found in the QPL, is enclosed. The acceptance code for this product will be "3101." Acceptance code "3101" states that the acceptance will be by visual verification that the product delivered to the job site is the product that was originally submitted by the Contractor and approved from the QPL.

This information is available at: www.wsdot.wa.gov/biz/mats/qpl/qpl_search.cfm.

If there are any questions concerning this matter, please contact Erica Legaspi at (360) 764-6759.

Sincerely,

Patrick Norton
Assistant Materials Quality Assurance Engineer
